

**Engineered to deliver consistent and reliable performance in a wide range of work piece materials...**

**Best Suited for  
General Purpose  
machining...**

**1X**

**201-204 Series  
End mills**

**FEATURES & BENEFITS :**

- Hundreds of sizes whether in metric or inch all available or made on request in no time.
- Available in 2/3/4/6 Flutes.
- Unique PVD coating enhances tool life and enables smoother, faster machining.
- Available in Standard, Long, Extra Long series, Taper Neck Type for long reach applications, Bull Type & Corner Radius type are also available.

**APPLICATION:**

- Best suited for machining of steel, stainless steel < 30HRc, and non-ferrous materials in general job-shop application
- Excellent for use in light duty milling and short-run production operations.

**1X**

**201-204 Series  
End mills**

**Your daily Milling problems:  
"Side-milling, Slotting or  
even hardest of Plunging  
Applications..."**

**OUR ENGINEERS ARE  
THERE TO HELP YOU ...**

**SIZES AVAILABLE:**
